| Natural | Natural and brushed | Natural and polished |

The above are all three examples of natural anodized aluminium. The left image is an example of a plain, natural anodized louvre. This is also known as standard anodizing.

The other two images show combinations of untreated natural anodizing (left) and pre-treated natural anodizing (right). These pre-treatments are, from left to right, brushing and polishing. Brushing roughens up the surface. Polishing makes aluminium even more reflective than when it is just natural anodized.

Brushing or polishing is also possible in combination with the colours below.

BRONZE

| Bronze 01 | Bronze 02 | Bronze 03 | Bronze 335 | Bronze 04 |

BRASS

| Brass 01 | Brass 02 | Brass 03 | Brass 04 |

OLD COPPER

| Old Copper 01 | Old Copper 02 | Old Copper 03 |

GOLD

| Gold 00 | Gold 01 | Gold 02 | Gold 03 |

COPPER

| Copper 01 | Copper 02 | Copper 01 | Copper 04 |

RED

| Red 01 | Red 02 | Red 03 | Red 04 |

OTHER

| Black 01 | Grey 01 | Blue 01 | Green 01 |

Please note; The above colours are an indication. A colour also appears differently on a screen than on aluminum.
